

Salone del Mobile.Milano

The Salone Library
2025

Salone Library

The Salone isn't just a trade fair, it is also a cultural event. It has always invested in a Cultural Programme designed to broaden horizons and offer new interpretations of design and the changing world. The **Salone Library**, launched in 2024, is one of its liveliest and dynamic expressions. It grows year by year thanks to the suggestions of designers, curators, architects and scholars – the protagonists of the collateral events – who share with us the books that have most inspired them along their personal and professional journeys. The selected books encompass different genres and languages – from non-fiction to art, and fiction to poetry, by way of graphic art and photography.

Chiming with the Euroluce biennial in 2025, project focused in particular on the theme of light. The protagonists of the first Euroluce International Lighting Forum, as well as the superstars of the Drafting Futures. Conversations about Next Perspectives talks, and the designers who enlivened the talks at the Design Kiosk and the Library of Light, were asked to choose the books that had particularly influenced their way of thinking around and designing light. The result is a rich and surprising collection, which has seen the library's stock grow to over 200 volumes.

The 2025 selection was again exhibited against the backdrop of the Drafting Futures Arena, allowing visitors an opportunity to wander among the display cases and discover which books had fed the imaginations of the great protagonists of contemporary architecture and design.
